Your first day programme!

We hope that you slept well and are ready for a busy day!

The Young Learner team are here to look after you and will guide you through the day. The EC Young Learner team are easy to see - look for anyone in an orange EC uniform – they are there to help you!

The day starts with a welcome talk by the Programme Manager. Lots of important information, so please listen carefully. If you have a question, just ask!

You will then have a small test. This is nothing to be worried about. Just do your best! The purpose of the test is to put you into the right class to help your learning.

Your Welcome Pack has important things in it. Do not lose it! The wristband has the EC emergency number on it; your ID card also has the address of the school. Please use the notepad for writing down important information – and for your classroom work.

After the test, the Young Learner team will take you to lunch, where you can relax, meet new friends and eat some food. It's been a long time since breakfast!

After lunch, it's time to get to know your city! You will be placed into groups and then a member of the Young Learner team will take you and show you around the city. Listen out for important information and don't forget to wear your wristband and ID card with the emergency number. Enjoy your visit!
